

Female GenCyber Student & Educator Summer Camp!

Columbus State Community College is hosting a female Student & Educator's Summer Camp in Cyber Security.

Calling all girls! Join us for our five-day hands-on, interactive summer workshop that will create awareness and teach practical privacy and security measures to high school girls and female faculty.

You will receive an introduction to this emerging field and a special emphasis will put on assisting students on 10 Cybersecurity Principles and careers in cyber security.

Program Curriculum & Highlights:

- Learning basic Cybersecurity Principles
- Meet C-Suite & Executive women in Computer Science with opportunity for mentorship
- Receive an introduction to Columbus State Computer Science & Cyber Security Program
- Learn how high school students can receive college credit
- Observe industry presentations on career pathways and internship opportunities
- Learn to secure your personal cyber world
- Participate in a Capture the Flag Cybersecurity Competition!

Additional Benefits for participation:

- Earn a certificate of completion
- Teachers receive CEUs and \$600 stipends; Students receive \$100 stipends

JULY 16 – 20, 2018
